

## Understanding Ground Resistance Testing - Webinar

Whether you're performing regular ground testing on existing systems, troubleshooting power quality problems or designing grounding systems for new installations, a solid understanding of ground and soil resistivity testing procedures and the equipment used in conducting these tests is essential.

Cat.#.01

Please note: Registrants may cancel up to ten (10) working days before the day of the course for a full refund. Cancellations received later than ten days prior to the course are subject to a \$100 service charge. Those who have not cancelled two (2) days prior to the course and 'no shows' are subject to the entire fee. AEMC<sup>®</sup> Instruments reserves the right to cancel within seven business days.
