

**GROUND RESISTANCE AND INSTALLATION TESTING**

**GENERAL ELECTRICAL RENOVATION WORK**

- 

1 Ground resistance testing  
GROUND RESISTANCE TESTER  
MODEL 6424
- 

2 Comprehensive electrical safety testing on installations  
MULTI-FUNCTION INSTALLATION TESTER  
MODEL CA 6116N

- ENERGY EFFICIENCY**
- 

3 Measurement of insulation, leakproofing and thermal bridges  
THERMAL IMAGING IR CAMERA  
MODEL 1954
  - 

4 CO<sub>2</sub> temperature and humidity testing  
AIR QUALITY LOGGER  
MODEL 1510
  - 

5 Recording and analysis of electrical consumption  
POWER & ENERGY LOGGER  
MODEL PEL 103

POWER & ENERGY LOGGER  
MODEL PEL 52

- 

6 Measure voltages and verify function of GFCI's  
VOLTAGE ABSENCE TESTER  
MODEL CA 773
- 

7 Identify cables and locate open circuits or faults  
CABLE LOCATOR  
MODEL 6681
- 

8 Verification of voltages, currents and electrical continuity  
CLAMP-ON METER  
MODEL 205
- 

9 General measurements of voltage, current and resistance  
DIGITAL MULTIMETER  
MODEL 5217
